ACTion Booth
by A.C.T. DUST COLLECTORS

A.C.T. Dust Collectors is proud to introduce the ACTion Booth. Hundreds of applications require general dust collection from a room, work area, enclosure or zone. Featuring a heavily constructed, louvered door which is one of the largest in the industry, you get maximum dust collection at all work heights. The louvers are designed to assist fallout of heavy particulate while evenly distributing air across the vertical filters inside. The integrated blower and interior pulse clean diaphragm valves provide consistent, quiet and powerful performance. With space at a premium, the ACTion Booth can be serviced from the front and top, allowing installation against walls on the back or sides.

5,400 CFM

# of Filters	4
Filter Area	1400
Horsepower	7.5
Height	96
